## Junior Web developer

### EDUCATION

**2012-2015(Pakistan)** : High school diploma from Milat school

**2015-2019(Sweden)**: Learning Swedish and web development at Balder high school

**2019-2020(France)**: Preparation for Delf B1 (French language studies diploma) and Web development at Konexio Digistart.

### EMPLOYMENT HISTORY

**2013 - 2015(Pakistan)**: Seller with an artisanal honey producer (international distribution)

**2016 - 2018(Sweden)**: Tourist guide in Älvkungen Tourist boat: reception of tourist groups, guide and piloting of the boat.

**2019 - 2020(France)**: Volunteer interpreter at the Scarabée association.

**December 2019 - Now**: As a junior developer for Blackbird (Jam)

[Jam](#) is a Parisian startup innovating in the conversational media, connecting the young generations with companies willing to understand them. My role was to design and develop new features in the multi-bot data restitution system and the redaction tool for the chatbot content writers.

Here is a [letter](#) of recommendation from Valentin Shamsnejad, the CTO of Jam.

#### What I learned :

- APIs, MVC, Scrum, Tests, CI/CD
- Programming languages : Javascript, Ruby, Bash
- Other dev tools : Git, Github, Heroku, Linux
- Database : PostgreSQL
- Frameworks : VueJS, Ruby on Rails, Bootstrap

#### Achievements as a Junior Developer :

- Build Client management system for [trends.hellojam.fr](https://trends.hellojam.fr)
- Implemented several features in the data restitution system, to better manage the insights we create for the business
- Build an API and create an interface for the referral message in redaction tool for the chatbot

### SKILLS

#### Languages :

- |                   |                |
|-------------------|----------------|
| • Pashto (native) | • Persian/Dari |
| • French (b1)     | • Urdu/Hindi   |
| • English (b1)    |                |

### INTERESTS

#### My Projects :

- Build [quote api](#) which has more than 59K quotes.
- Build a quote [game](#) with help of my quote api.

Books I read : Clean code, Scrum & XP, Ruby Notes For Professionals, POODR (Practical Object-Oriented Design in Ruby)

#### Hobbies :

- [Codewar](#), chess, running, hiking, snowboarding movies, series and online games
